

# Garden Nursery Plant Tag Labels In Microsoft Dynamics 365 For Operations (AX)

Create and print custom nursery plant tag labels, allowing businesses to:

- Create and print unique bar codes for each item.
- Print item names, barcodes, prices, quantities, units, date, store number, and more on labels and tags.
- Print multiple labels for one item.
- Print labels for more than one item at a time.
- Save settings for different label sizes, plant types, or display options using Report Names for future use.
