

Microsoft RMS Customer Rewards

- RMS Customer Rewards tracks purchase points for customer purchases.
- Points are tracked to a customer or specific authorized buyers for a customer.

- An RMS Voucher is created once a dollar threshold has been reached
- The customer can use this voucher towards a future purchase
- Can also set on a per-item basis a percentage off or reward quantity when a threshold quantity for that item is reached
- Rewards can be set per item, category or department
- Cashier can enter Voucher or scan a printed Voucher
- Voucher remaining balance is tracked and displayed on the receipt
- Subsequent purchases add to the Voucher balance

System Requirements

RMS Customer Rewards requires the following: Microsoft RMS version 2.0, .Net 3.5, SQL 2005 Express or Higher
