

Item Quantity Prompt

Increase accountability at the register with the System Solutions Item Quantity Prompt. This Add-on forces the cashier to double check the amount of items in the landing area to the number of items on the POS screen. Before a transaction can be tendered the cashier is prompted to enter the number of items in the landing area which is compared to the number of items on the POS screen. This forces employees to check their item count so customers don't walk out the door with extra items.

Quantity	Price	Extended	Tax
1	\$37.99	\$37.99	<input type="checkbox"/>
2	\$9.99	\$19.98	<input type="checkbox"/>
