

RMS Item Quantity Prompt

System Solutions, LLC.

The screenshot shows the 'Store Operations POS' application window. At the top, there are fields for 'Sales', 'Dave', and 'Discount: 0.00%'. Below this is a summary section for 'Sales: Savings: YTD:' with various fields like 'Car License', 'Drivers License', 'Employee Discount', 'Pesticide', and 'Customer Rewards'. A 'Balance towards next voucher:' section is also present. The main area is a table with columns: 'Item Lookup Code', 'Description', 'Quantity', 'Price', 'Extended', 'Tax', and 'Rep'. One item is listed: '000752 PICK HEAD 6# RAILROAD' with a quantity of 1, price of \$22.71, and extended price of \$22.71. A modal dialog box titled 'Please enter item quantity' is centered over the table, with an input field for 'Item quantity' and an 'OK' button. At the bottom of the screen, a summary bar shows 'Sub Total \$22.71', 'Sales Tax \$3.18', and 'Total \$25.89'. Below the summary bar is a grid of function keys (F1-F12) and a vertical sidebar on the right with various application icons like 'RMS Rental', 'Orgill', 'Customer Rewards', 'True Value', 'ACE', 'Item Drilldown', 'Item Search', 'Lumber Manager', 'Copy Quote', 'Item History', and 'RMS Picture Invent'.

- POS prompts user to enter quantity of items during item add
- Eliminates selling a default quantity of one when typical item sale is more than one
