

RMS Item Drill Down

RMS Item Drill Down enables rapid find and select of items at the point of sale.

- Allow cashier to easily select items using a mouse or touchscreen.
- Drill down unlimited levels of department, categories, sub-categories and items.
- Single window refreshes at each level (above is multi-window for demonstration purposes).
- Optionally word search for items.
- Automatic sales tally and accumulation of buttons on Favorite Items tab at each level.
- Setup options include:
 - Automatic generation of department / category buttons for all items in database.
 - Create and Import all levels and buttons from Excel.
 - On screen add, remove and edit items and categories on unlimited levels.
 - On screen add, remove and edit button and database pictures on unlimited levels.
