

EBT Tax & Totals Add On for RMS and TPI

Works with any transactions involving Food Stampable / Cash Benefit eligible products.

- Calculates total and non taxable allowed Food Stamp amount
- Option to override the Food Stamp tender amount or clicking Not FS Transaction if Food stamps will not be used
- In RMS tender screen, the transaction balance is corrected by the Add In, properly removing the taxes from the equivalent amount of items that will be purchased with food stamps
- Cash Benefit Tender can be used simultaneously and taxes will be charged on the equivalent amount of items paid for with Cash Benefit

Food stamps amount

Maximum allowed on food stamps:	3.23
Amount to put on food stamps:	<input type="text" value="3.23"/>
